PUBLIC NOTICE

Subject: 'QR Code' on Type Certificate issued through eGCA portal for UAS models

In continuation of efforts to streamline and ensure efficient compliance of the Drone Rules, 2021, a **'QR code'** on Type Certificates for UAS models has been implemented w.e.f. 29th June 2026.

Accordingly, all Type certificates issued on or after 29th June 2026 through eGCA will be bearing a **'QR code'** for ascertaining veracity on real time basis regarding Type Certificate (crucial parameters/ information in the data sheet including limitations and conditions and suspension/ cancellation status etc.).

This provision will improve traceability, authenticity, and ease of verification for regulators, customers, and service providers. The **'QR code'** may be accessed through any standard **'QR code'** reader app on mobile handheld devices.

Director General of Civil Aviation
